

Remarks

Upon entry of the foregoing amendment, claim 21 is pending in the application, with claim 21 being an independent claim. Claims 1-20 were previously cancelled. Pages 26-52 of the specification were previously deleted. Figs. 6-32B were previously added.

In response to the Notice to File Corrected Application Papers, a substitute specification is attached hereto, having pages 1-33, to replace originally filed specification pages 1-25 and 53-60. The attached substitute specification is believed to be identical to that filed on July 10, 2003. However, to the extent that the substitute specification is not identical, the original specification should control.

In a Preliminary Amendment filed in the present application on July 10, 2003, Applicants submitted amendments to various paragraphs of the original specification. In lieu of entering the previously submitted amendments to the original specification, Applicants respectfully request that the above amendments to various paragraphs of the attached substitute specification be entered. These changes are believed to introduce no new matter, and their entry is respectfully requested.

Conclusion

Applicants believe that a full and complete reply has been made to the outstanding Request for Corrected Application Papers and, as such, the present
